BAHUMATI — INVESTOR PITCH DECK

Executive-Grade | Fundraising Edition | Confidential

SLIDE 1 — COVER

🌱 Bahumati

Gift the Growth

> ***"We are building India's first wealth-gifting infrastructure —***
> ***where every emotional moment compounds into financial legacy."***

Industry: FinTech / WealthTech / Gifting Economy
Stage: Post-MVP · Pre-Scale
Market: India (Primary) · NRI Corridors (Future)

> 🎤 ***Speaker Notes:*** *Open with the emotion. Ask: "What's the last meaningful gift you gave someone?"*
> *Pause. Then say: "What if that gift was still growing today?"*
> *That is Bahumati. Let the concept land before moving forward.*

SLIDE 2 — EXECUTIVE SUMMARY

What We Do

- Convert gifting occasions into **regulated, compounding financial investments**
- Gift amounts become real mutual fund / gold units — not vouchers, not points
- Platform links **emotional moments** to **long-term wealth creation**

Why It Matters

- India is the world's largest gifting economy — yet wealth penetration remains below 10%
- No platform today bridges India's gifting culture with regulated investing
- Bahumati is the **first and only** product in this intersection

Why Now

- UPI-native generation is ready for digital-first investing
- SEBI has strengthened MF retail access — regulatory tailwind is live
- Gifting behaviour is accelerating post-COVID; digital gifting is normalized

---

> 🎤 ***Speaker Notes:*** *Keep this tight — 60 seconds max. You're setting the frame.*
> *The big idea: Gifting is a $100B+ habit in India. We're upgrading it.*
> *The window: Regulatory infrastructure is ready. Consumer behaviour has shifted. No one else is here yet.*

SLIDE 3 — THE PROBLEM

Traditional Gifting Is Broken

- ❌ **Gifts lose value immediately** — sweets, clothes, gadgets depreciate to zero
- ❌ **No long-term impact** — receiver gains nothing after the moment passes
- ❌ **Zero compounding** — money spent never works again

The India-Specific Gap

- 🇮🇳 Indians are **habitual gifters** — culturally, ritually, and socially
- 📉 Indians are **fearful investors** — less than 10% of population invests in mutual funds
- 🚫 **No bridge exists** between these two deeply embedded behaviours

The Cost of This Gap

- Trillions of rupees gifted annually — generating **zero financial return**
- Every missed gifting occasion is a **lost compounding event**

> 🎤 ***Speaker Notes:*** *Make it personal. Every investor in the room has gifted ₹5,000 at a wedding that generated nothing.*
> *The pain is real, cultural, and universal in India. The size of this gap is your TAM.*
> *Don't linger here — quickly move to the solution.*

SLIDE 4 — THE SOLUTION

Bahumati — Gift the Growth

- 🎁 **Gifter** sends an amount (₹100 to ₹1L+) to any mobile number / occasion
- 💹 **Amount converts** into real investment units — UTI Nifty 50 or Gold FoF
- 📲 **Receiver notified** instantly: *"Your Bahumati Gift is growing for you"*
- 📈 **Receiver tracks** growth, claims units, builds long-term wealth
- 💌 **Love Memo** add-on: Photo, voice, video — emotion permanently attached to the asset

Core Principle

- No pseudo-tokens. No gift cards. No wallets.
- **Real regulated investments. Real compounding. Real impact.**

> 🎤 ***Speaker Notes:*** *Walk through the 5-step flow simply. Use a real example:*
> *"Your daughter is born. You gift ₹5,000. In 18 years, at 12% CAGR, it's ₹38,000 — and she remembers who gave it."*
> *That is the Bahumati promise. Emotion + compound interest.*

SLIDE 5 — MARKET OPPORTUNITY

India's Untapped Intersection

Market	Size
TAM — India annual gifting economy	Multi-lakh crore (₹10L Cr+ estimated)
SAM — Digital-native, MF-awareness segment	₹1–2L Cr opportunity
SOM — Urban salaried gifters, Year 1–3	₹500–2,000 Cr reachable

Structural Growth Tailwinds

- 📱 **600M+ UPI users** — digital payments fully normalized
- 📊 **SIP assets grew 4x** in 5 years — investor confidence rising
- 👶 **Gen Z enters earning years** — first-time investors via gifting
- 🌍 **NRI remittance gifting** — $125B+ annual corridor, underserved

The Opportunity Statement

> ***First-mover in a multi-lakh crore intersection with zero direct competition.***

> 🎤 ***Speaker Notes:*** *Don't over-index on exact numbers — speak to the logic.*
> *The gifting market is ginormous and proven. MF growth is proven.*
> *Bahumati sits exactly at the intersection. The only question is: who gets there first?*

SLIDE 6 — PRODUCT & TECHNOLOGY ADVANTAGE

What Makes Bahumati Defensible

- 🔒 **AMFI ARN registered** — regulatory barrier most competitors can't easily replicate
- 🧠 **Proprietary gift-investment binding logic** — occasion → unit accounting → emotional metadata
- 💡 **Occasion-triggered UX** — no other MF platform is built around gifting moments
- 🔗 **Receiver virality loop** — every receiver is the next gifter (built-in acquisition engine)
- ❤️ **Love Memo** — emotional memory permanently linked to financial growth (unique retention driver)

Technology Architecture

- Mobile-first, API-driven (AMC + Payment Gateway)
- All assets held at AMC level — platform never holds user money
- KYC / AML hooks built into core flow

Moat Summary

> ***Regulatory compliance + emotional brand + habit formation = compounding moat***

> 🎤 ***Speaker Notes:*** *The tech is not the moat — be honest about that. The moat is regulatory credibility + emotional brand.*
> *No super-app can replicate trust overnight. Regulatory setup alone takes 6–12 months.*
> *The receiver-to-gifter flywheel is the most important slide insight — highlight it.*

SLIDE 7 — BUSINESS MODEL

Revenue Architecture

Stream	Model	Timeline
Service Fee	₹3 flat per gift transaction	Live (MVP)
Love Memo Premium	Tiered add-on (photo/voice/video)	Phase 2
Corporate Gifting B2B	SaaS / volume fee model	Phase 2
ELSS / Goal-based Gifting	Higher-value product tier	Phase 3
NRI Cross-Border Gifting	Premium international corridor fee	Phase 3

Unit Economics (Illustrative)

- Revenue per gift: **₹3** (growing with premium tiers)
- Cost per gift: **₹2–₹4** (declining with scale)
- Model becomes profitable at **high transaction volume + add-on penetration**

Scalability Logic

- **Zero marginal cost** to add a new user
- **Pan-India ready** — no physical infrastructure needed
- **B2B layer** dramatically increases ARPU with no UX friction

---

> 🎤 ***Speaker Notes:*** *Acknowledge the ₹3 fee directly — don't hide it. Then pivot:*
> *"This is our Stripe moment. Start at cost. Win the behaviour. Monetize the relationship."*
> *The real play is: Corporate gifting + ELSS + NRI = 10–50x ARPU uplift over 3 years.*

SLIDE 8 — TRACTION & PROOF

Current Validation Signals

- ✅ **MVP Live** — core gift → invest flow operational
- ✅ **AMFI ARN Acquired** — regulated and investment-grade compliant
- ✅ **AMC integrations active** — real MF / Gold investments working end-to-end
- ✅ **KYC / AML framework** — fully compliant onboarding built
- ✅ **Concept validated** — cultural-fit research across gifting occasions confirmed

Why This Matters More Than Revenue at This Stage

- Regulatory clearance is the **highest proof-of-seriousness signal** in Indian fintech
- Most competitors fail here — Bahumati is already through the hardest gate
- Early user feedback: **High emotional resonance, strong retention intent**

> *"Regulatory readiness at this stage is worth more than ₹1 Cr in revenue."*

> 🎤 ***Speaker Notes:*** *Be transparent: we are pre-revenue-scale. But immediately reframe.*
> *What we have built — regulatory, tech, product — is the foundation that takes competitors 12–18 months.*
> *Traction in fintech before product-market fit is compliance, not revenue. We have compliance.*

SLIDE 9 — COMPETITIVE LANDSCAPE

No Direct Competitor Exists

Category	Players	Gap
MF Platforms	Zerodha, Groww, Paytm Money	No gifting layer, no emotion
Gold Apps	SafeGold, MMTC-PAMP	No occasion context, no investment gifting
Gift Cards / Vouchers	Amazon Pay, Flipkart	No compounding, no regulation
Banks	HDFC, SBI	No gifting UX, institutional friction
Bahumati	✅ **Only player**	Regulated + Emotional + Compounding

Why Bahumati Wins

- 🥇 **First-mover** in the gifting-investment intersection
- 🏛️ **Regulatory barrier** — AMFI compliance takes time and expertise
- ❤️ **Emotional brand** — trust takes years to build, impossible to clone overnight
- 🔄 **Flywheel** — receiver → gifter → network effect built into product DNA

> 🎤 ***Speaker Notes:*** *The honest answer is: the moat today is thin on technology. But moat on regulation + culture + trust is real.*
> *And being first to form the habit is the most valuable moat of all.*
> *If a super-app copies this, it validates the market — and Bahumati has a 2-year head start on trust.*

SLIDE 10 — GO-TO-MARKET STRATEGY

Phase 1 — Organic & Ritual-Led (Now)

- 🎉 **Festival campaigns** — Diwali, Sankranti, Eid, Christmas gifting moments
- 👪 **Parent & family networks** — new parent communities, school WhatsApp groups
- 📲 **Social education content** — YouTube / Instagram financial literacy + gifting stories

Phase 2 — Viral & B2B (6–18 Months)

- 🔄 **Receiver-to-gifter conversion** — every claim notification triggers gifting intent
- 🏢 **Corporate HR gifting** — employee rewards, festival gifts via Bahumati
- 🤝 **AMC distribution partnerships** — co-marketing with fund houses

Phase 3 — Enterprise & International (18M+)

- 🌍 **NRI cross-border gifting corridor** — ₹125B+ market, emotionally motivated
- 🏦 **Bank / NBFCs white-label gifting** — infrastructure-as-a-service

Key GTM Metric to Watch

> ***Receiver-to-Gifter conversion rate*** *= the heartbeat of viral growth*

> 🎤 ***Speaker Notes:*** *The GTM is lean and smart — no paid acquisition dependency at the start.*
> *The product IS the marketing: every receiver who claims a gift sees the Bahumati brand.*
> *Corporate gifting is the ARPU multiplier that makes the model work at scale.*

SLIDE 11 — FINANCIAL SNAPSHOT

Current Position

Metric	Status
Revenue	Early-stage (pre-scale)
Burn Rate	Low (lean operations)
Funding	Bootstrapped
Capital Efficiency	High — concept-first, infra-light

3-Year Projection Logic (Illustrative)

Year	Annual Gifts	Revenue (@ ₹3 base + premium)	Notes
Y1	50,000	₹15L+	Organic launch, festival play
Y2	5,00,000	₹1.5Cr+	Corporate + premium add-ons activating
Y3	50,00,000	₹15Cr+	Network effect + NRI + B2B tier

Capital Efficiency Advantage

- No physical inventory. No branches. No agents.
- Infra scales at near-zero marginal cost
- Post-seed: Growth marketing + tech depth = fastest path to break-even

---

> 🎤 ***Speaker Notes:*** *State the numbers as illustrative and logic-based — don't oversell.*
> *The key message: we are capital-light, infra-light, and positioned for exponential if network effects fire.*
> *The upside is disproportionate to the seed investment required.*

SLIDE 12 — TEAM & GOVERNANCE

Founder Strengths

- 🎯 **Deep cultural intelligence** — India's gifting rituals understood at DNA level
- 💡 **High conceptual clarity** — product reflects mission with zero drift

- 🏛️ **Regulatory-first thinking** — AMFI ARN secured proactively
- ⚡ **Execution velocity** — MVP built and live with lean resources

Current Team Structure

```
Founder (Strategy, Vision, Compliance)
├── Technology (hybrid in-house + contract)
├── Operations / MF Compliance (partner-driven)
└── Design & Product
```

Governance Roadmap (Post-Seed)

- Appoint **independent advisory board** (fintech + regulatory expertise)
- Formalize **ESOP pool** (8–12% recommended)
- Introduce **risk & compliance committee**

> 🎤 ***Speaker Notes:*** *Be transparent about the lean team — it's a strength at this stage, not a weakness.*
> *Key investor concern: key-person dependency. Address it: "First hire post-funding: a co-founder-level Head of Growth."*
> *Governance improvement is already planned — show maturity.*

SLIDE 13 — ROADMAP & GROWTH PLAN

Phase 1 — MVP & Validation (Now → 6 Months)

- ✅ Index Fund + Gold gifting live
- ✅ Love Memo operational
- 🔲 Festival campaign activation
- 🔲 First 10,000 gift transactions

Phase 2 — Scale & Monetize (6 → 18 Months)

- 🔲 ELSS (tax-saving) gifting product
- 🔲 Child education & goal-based portfolios
- 🔲 Corporate HR gifting channel live
- 🔲 Premium Love Memo tiers (voice + video)

Phase 3 — Platform & Expansion (18M → 36M)

- 🔲 AI-based gift recommendations
- 🔲 Family wealth tree visualization
- 🔲 Multi-asset gifting (bonds, SGB, REITs)
- 🔲 NRI cross-border gifting corridor

North Star Vision

> ***India's gifting infrastructure layer for wealth creation***

> 🎤 ***Speaker Notes:*** *Show that you have a 3-horizon view. Phase 1 is de-risked. Phase 2 is clear. Phase 3 is ambitious.*
> *Investors fund the team and the vision, not just the MVP. Show you can think in decades.*
> *"We are not building an app. We are building a financial habit."*

SLIDE 14 — RISKS & MITIGATION

Risk Register

Risk	Probability	Impact	Mitigation

Low adoption velocity	Medium	High	Festival-first GTM; emotional storytelling; low ₹100 entry barrier
Super-app replication	Medium	High	2-year trust moat; regulatory head start; brand positioning
Regulatory policy shift	Medium	High	AMFI ARN in place; SEBI-aligned product design; legal advisory
Low ARPU / thin margins	High	Medium	B2B corporate layer; premium tiers; NRI corridor unlocks 10x ARPU
Founder key-person risk	Medium	High	Advisory board; ESOP-driven co-founder hire post-seed
KYC friction / user drop-off	Medium	Medium	Minimal KYC for gifter; receiver claims at convenience

Early Warning Signals to Monitor

- Flat MAU growth → pivot GTM channel
- Rising CAC → activate referral / viral mechanism
- Regulatory notices → escalate legal team response

> 🎤 ***Speaker Notes:*** *Show you've stress-tested your own business. Investors respect founders who know their risks.*
> *The key message: we know the risks, and we have mitigations ready — not improvised, but planned.*
> *Most risks are manageable. None are existential if execution is disciplined.*

SLIDE 15 — THE ASK & VISION CLOSE

Funding Ask

Item	Detail
Round	Seed
Amount	[₹X Cr — to be defined by founder]
Instrument	Equity / CCPS
Lead Investor Target	Mission-aligned fintech / impact fund

Use of Funds

Allocation	Purpose
40%	Growth marketing & festival campaigns
30%	Technology depth & platform scaling
20%	Regulatory & compliance deepening
10%	Team expansion (Head of Growth + Data)

The Vision Close

> *"Every Indian has gifted money that disappeared.*
> *Bahumati ensures that from this moment forward,*
> *every rupee gifted in love — compounds in wealth.*
> *We are not building an app.*
> *We are building a new financial habit for a billion people."*

> 🎤 ***Speaker Notes:*** *End on emotion, not numbers. The financial case is made. Now make them feel it.*
> *Leave them with the image: a grandmother gifting ₹1,000 at a grandchild's birth — and that child seeing it grow to ₹20,000 by their 18th birthday.*
> *That is Bahumati. That is the ask. That is the vision. Close here.*

All financial figures are illustrative projections. Past performance of investment instruments does not guarantee future returns.
